

**DARNHALL PARISH COUNCIL
MEETING – 19TH MARCH 2024**

AUTOMATIC EXTERNAL DEFIBRILLATOR

1 INTRODUCTION

The Parish Council is asked to consider several quotes for an Automatic External Defibrillator (AED).

2 DECISIONS REQUIRED

The Parish Council is asked to confirm the location of a defibrillator as the Old Star public house on Swanlow Lane. Advice from the NW Ambulance Service says that the location needs to be free of any slip/trip hazards and should have adequate lighting for night-time access. Any location needs to be where there is the biggest footfall and also needs to be as near to residential properties as possible. The Parish Council is asked to decide which of the suppliers listed below it wishes to approach to provide the defibrillator and associated equipment. These suppliers have been recommended by the NW Ambulance Service.

3 INFORMATION

There is a range of suppliers available who supply defibrillators. The recommendations from the NW Ambulance Service are: -

- DefibCentral – AWC003 Cabinet and iPad SP1 Defibrillator - £1,325.00

4 NEXT STEPS

Members are asked to consider these quotes or offer suggestions and agree on a way forward. The Parish Council is also asked to agree a Memorandum of Understanding with the NW Ambulance Service for the provision of support after purchasing an AED.

5 CONCLUSIONS

This report has set out options for the purchase of a defibrillator by the Parish Council: -

- To decide on an AED to purchase
- Agree to sign the MoU with the NWAS
